***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Gracie (US 4,407,497).

Gracie discloses a bra as broadly claimed in that the support garment contours and supports the breasts and can be worn as an undergarment. The front is spandex and supports the breast and includes first and second shoulder straps and the rear includes at least one pocket 18 with weight disposed therein. (See Gracie, figures 1-5 and col 3 lines 54 –59) and col. 3, line 33 – col. 4, line 34). Gracie discloses an outer panel (at 18) on the rear of the bra and an inner panel to at least partially define the pocket as seen in figures 2 and 5. Gracie discloses a second one of the pockets as claimed as seen in the figures.

Claims 2,4,5 and 7-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 14-26 are allowed.

***Response to Arguments***

Applicant's arguments filed 7-15-05 have been fully considered but they are not persuasive. The limitation added to claim 1 is less than what has been claimed in claim 14. The allowable subject matter includes that the weight is releasably attached by a

Art Unit: 3765

fastener. As presently claimed one can consider that the weight is releasably attached by the pocket and as being within the pocket. The fastener within the pocket must be claimed.

None of the cited references, alone or in combination disclose the weight and fastener and the pocket and fastener that complements the weight fastener for attachment within the pocket and the cold packs within the pockets with the weights as claimed.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
